### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Duane Byers on Wednesday January 11, 2006.

Drawings filed on 11/08/05 are accepted by the Examiner

The application has been amended as follows:

**In the currently amended claim 1, line 5;  
please change "a follower" to, --said follower--**

2. The following is an examiner's statement of reasons for allowance: while prior art (e.g., GB 710,707, Sharman, Huang et al. or Chung) discloses a handle pivotally attached to the housing, it does not teach or suggest providing a dual function follower or pin pivotally connecting the handle to the housing and further provide the rotational movement of the socket relative to the housing as now recited in the amended claim 1, and such modification appears hindsight to the Examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
